Edward VII. speaks English with a German accent. Nothing strange about that; there is more German in him than anything else.

The American people are getting stuck on the banana. They eat about $8,000,000 worth a year, and some of them don't get enough then.

It would be a good thing for the British Government if some of its generals in South Africa could be inoculated with some of De Wett's insanity.

Gunner Morgan seems to be getting on pretty rapidly, even if he did not enjoy early social advantages. He has learned to dance and is suing for a divorce.

Conger, minister to China, has arrived at San Francisco, on his way home. It is said he may resign. The American people would have been resigned if he had resigned long ago.

A Chicago paper says the discovery has been made that pure cider, a pint a day, taken at intervals, is a sure specific for smallpox. It must be the pure stuff though, and that isn't as easy to get as the smallpox.

Count Von Waldersee will not take that seven-room asbestos fireproof house with him when he goes back to Germany. It happened to be too near that winter palace in Pekin, and the flames lapped it up when the palace burned.

If Germany puts a tariff duty of 41 cents a bushel on wheat and 18 cents on corn, as is proposed, it will be rough on American grain exporters, but it will be rougher on German flour and meal consumers, who will pay the 41 and 18 cents.

English capitalists are preparing to establish a $50,000,000 steel and iron plant at Sault St. Marie, on the Canadian side, which will employ 10,000 men and, it is said, will be the most complete plant in the world. They propose to salt the American Steel Trust every time they can.

Mr. Rockefeller, Jr. in giving young men at Tuskegee advice, told them they mustn't be proud but must do anything they are told to do. When he went to work in his father's office he would do anything he was told, and would even put on his father's shoes if told to do it. There are lots of boys who would do that now and would pull the old man's leg, too, if they had half a chance.

BOND ISSUE ELECTION

The County Commissioners Have Called It to be Held Friday, May 31st.

THE AMOUNT IS $50,000.

Chairman McEachern Thinks If Question Carries Road Levy Will be Reduced. Inspectors and Registrars Named Later—Law Provisions.

The people of New Hanover county will vote Friday, May 31st., upon the question of the issuance of $50.000 in bonds for permanent road improvement.

The definite decision as to date was reached at a called meeting of the Board of County Commissioners last night at the Court House over which, Chairman McEachern presided and in attendance upon which were Commissioners Vollers, Holmes and Montgomery.

The election will be held under a special act of the recent General Assembly entitled "An act to issue bonds for road improvement in New Hanover county." An entirely new registration is required for the election and a majority of the qualified voters of the county under such registration is required to carry the question in the affirmative.

The election will be held under the general election law passed by the Legislature of 1901 and in the same way as elections are held for members of the General Assembly. The STAR is informed that there is little change in this law from the one under which the election was held in August 1900. The polling places will be the same as in November and as near the same location as possible in the last election. There will be three polling places in First ward, two in Fifth, two in Harnett township and one in each of the other wards and townships of the county.

The definite arrangements as to the details of the election will be arranged at a subsequent meeting of the commissioners. A registrar will be appointed for each precinct and the registration books kept open for twenty days prior to the election. There will also be two inspectors at each precinct on the day of election to receive and count the ballots. These, with the other officers and the places, will likely be designated at the regular monthly meeting of the commissioners next Monday.

The ballots tendered and cast by the qualified voters shall have written or printed on them "For Good Roads" or "Against Good Roads," as the elector may chose to vote either pro or con upon the measure.

The law providing for a submission of the question to the voters of the county stipulates the amount as $50,000 with interest coupons attached and maturing 25 years hence. In speaking with Chairman McEachern last night about the measure he stated to a reporter that he was satisfied he could float the bonds at four per cent. or less and receive a premium upon them He said further that if the question is carried the commissioners would be enabled to reduce the present road tax levy from ten to five cents upon the $100 property valuation and that this decreased levy would provide each year sufficient revenue to pay interest upon the bonds and contribute to a sinking fund that will liquidate the bonds at the end of twenty five years. If the bond issue does not carry, Chairman McEachern says the road levy will have to be increased above the present ten cents levy in order to carry out the work as outlined for the incoming fiscal year at least. The commissioners under the present law have power to make the road levy as high as twenty-five cents on the hundred.

In the advertising columns of today's STAR official notice is given of the election as required by law.

Will Be Married To-Day.

Mr. William J. Martin, of the Raleigh *Morning Post*, arrived in the city yesterday afternoon and is a guest at the Orton. This afternoon at 3 o'clock in Saint Paul's Episcopal Church, he will wed Miss Lizzie Anderson McMillan, daughter of Dr. and Mrs. W. D McMillan, of this city, the Rt. Rev. Bishop A. A. Watson, of the East Carolina Diocese, officiating. Immediately after the performance of the ceremony the bride and groom will leave on the 3:30 o'clock S. A. L. train for Lincolnton, N. C., where they will spend a short time, after which they will go to Winston Salem to visit the groom's parents.

Mr. Henry B. Martin, of Charlotte, and Miss Carrie Martin, of Winston, brother and sister, respectively of the groom are here to attend the ceremony to-day.

Revenue Cutter Algonquin.

The United States revenue cutter *Algonquin* arrived in port Sunday from Port Royal, S. C. Capt. Willey says he found the docking facilities there amply adequate for his vessel and he has so reported to the treasury department. The *Algonquin* will be sent shortly to either Port Royal or Baltimore for her semi-annual overhauling.

A Street Car Innovation.

On and after June 1st., in order to facilitate travel and make it possible to give the public a better service, the cars of the Wilmington Street Railway Company will stop only at the "further" street corner from the direction the car is moving and at red posts that will be placed in the middle of each block. It is a custom in vogue in all the large cities and many of the small ones and is said to have proved of mutual benefit to the transportation companies and a convenience and safe guard to the public as well. It will be thirty days yet before the new order goes into effect.

Select Vaudeville and Comedy.

The Harriss, Trueheart and Mackey Company last night very cleverly presented to a small but appreciative audience the musical farce, "'Tis He." To night a select vaudeville performance and one-act comedy, "Highway man," will be given, and the prices will be 25, 35 and 50 cents. Ladies will be admitted free when accompanied by the holder of a paid 50 cents ticket. To morrow afternoon at 3 o'clock a matinee will be given when the prices will be 15 and 25 cents.

Let the Wilmington rooter rejoice and the proverbial small boy be glad.

Capt. Bob Stafford's Giants have taken by a good comfortable score—nine to four—a game of base ball from Ashenback's Shipbuilders at Newport News, before whom for the first time and twice in succession the Norfolk team has fallen. In other words, when Wilmington lines up against the team that seven successive days stood with perfect per cent. at the top of the column and bade defiance to any and every thing that it met on the diamond, she will do so with conscious ness deep down in her boots that she has taken a game from the superior of the team about to be confronted and the one that has been a mortal terror to its every associate in the Two State League.

Manager Peschau might well have telegraphed home last night: "*Veni, vidi, vici*," but that was unnecessary for most everybody in town was at Fishblate's, where the bulletins from all three games were posted every few minutes, telling in no uncertain terms how our boys with the invincible "Tacks" Allen in the box, were laying it on the boys that beat Norfolk. It was a plain story in figures, but they say figures never lie, and as each inning was posted the "sports" cheered the returns to the echo.

The following special telegram to the STAR was received from Newport News last night:

NEWPORT NEWS, April 29.—The Wilmington Giants took the first game of the series with Newport News-Hampton to day, the score being 9 to 4 The Shipbuilders played Chinese ball at times, with disastrous results, and Slagle's pitching for the home team could not compare with that of Allen for the visitors. The Shipbuilders had the game clinched in the fifth, but dumb plays, which followed gave the visitors runs, which should have been cut off. The Giants out played the Shipbuilders in the field and out batted them. Crockett, of Wilmington, made a home run and a two tagger. Ashenback led the home team at the bat with three hits. The score:

Some General League Notes.

The Richmond *Dispatch* of Sunday says: "Clayton of the Wilmington Giants is said to be the best shortstop in the Two State League." There's more truth than poetry in that simple statement.

Hollywood, who was signed for the outer garden early in the season has been given his release and last night he left for Utica, N. Y., where has the offer of a good position. Vorhees, one of the latest additions to the team, will likely be released to Portsmouth or some other team in the Two-State League.

Manners, who caught the three Richmond games here last week, has declined to accept an offer from the Boston team of the American League. He telegraphed his declination from Raleigh Saturday night.

The Richmond *Dispatch* of Sunday says: "One of the troubles of the Virginia Carolina Leage is that the season was commenced too soon—fully two weeks before it should have opened. Although some of the clubs have played every schedule game, and none of them have more than two postponed, a majority of them have been played in such bad weather that the players have not been able to make a good showing; their records for the season will be lowered on account of a bad start, and the patrons of the game have not attended the exhibitions on account of the chilling and disagreeable weather."

Umpire Davis Has Resigned.

League Umpire J. R. Davis, of Wilmington, arrived in the city Sunday morning and expected to leave for Portsmouth in the evening to umpire the game there yesterday. At the last moment, however, after going to the station, he decided in view of recent developments and his inability to please everybody to resign his position. He accordingly wired President E. H. Cunningham, of Norfolk, yesterday morning that he would resign the place and that an explanatory letter would follow. Upon his return from Raleigh the papers in that city spoke very complimentary of his work and decisions there. He says Raleigh has a good aggregation of ball players and will make her sister teams "hump" for the pennant.

Umpire Davis assigns as the reason for retiring from the League his inability to please contesting teams and the public at large, consistent with what he conceives to be his duty as an official of the organization. Last night he forwarded the supplemental letter to his telegram. Wilmington regrets that he did not see his way clear to continue through the season. The STAR learns that it is quite likely that Mr. S Upchurch, of Raleigh, will be appointed to succeed Mr. Davis.

The Wilmington team left at 9:45 A. M. Sunday for Newport News, where they play three games this week. Umpire Staley is officiating, while Mr. Clarke is at the Norfolk games. The Portsmouth team left on the same train with the Wilmington boys for home.

Champ O'Steen, of Greenville, S. C., Manager Peschau's new man for the outer garden, arrived Sunday on the W. C. & A. train at 1:45 o'clock and left in the evening to join the team at Newport News. His forte is at the stick and one enthusiastic admirer of his, "who doesn't take any interest in base ball," went so far as to say he excelled Stafford at batting. While that is not possible on the face of it, it is believed that he is fully up to the recognized Stafford standard and, if so, he is all right. There is little base ball timber better than Capt. "Bob."

The score at Norfolk yesterday was as follows:

	1	2	3	4	5	6	7	8	9	R	H	E
Richmond	0	0	0	0	0	0	0	1	0	1	1	5
Norfolk	0	1	1	0	0	0	1	0	0	3	8	1

The score at Portsmouth yesterday was as follows:

	1	2	3	4	5	6	7	8	9
Portsmouth	6	4	2	1	4	0	0	1	0—18
Raleigh	2	0	0	0	0	0	0	6	0— 8

IN VOLUNTARY BANKRUPTCY.

J. H Royal, of Clinton, Asks for Settlement of His Affairs by Referee.

Jacob H. Royal, of Clinton, N. C., through his attorneys, Allen & Dortch, of Goldsboro, yesterday filed with the clerk of the United States Court here a petition in voluntary bankruptcy, asking that same be heard by Referee Samuel H. MacRae at his office in Fayetteville at 1:30 o'clock P. M. on May 1st.

The liabilities are scheduled in the petition at $5,400, with assets, principally in accounts and judgments, amounting to $13,659.50. The only two creditors named are R. W. Hicks, of this city, in an unsecured claim of $4,600, and J. L. Stewart, of Clinton, from whom he purchased land in the sum of $900. The exemption asked is twenty-eight acres of land near Clinton, upon which defendant has a distillery valued at $1,000, and certain other property in the estate.

AMATEUR BASE BALL.

Little Giants and Walnut Streeters Played Interesting Game Yesterday.

The "Little Giants" won a hotly contested baseball game with the "Walnut Streeters" yesterday afternoon in the Hemenway School yard, the score having been 18 to 7. The line up was as follows:

LITTLE GIANTS.		WALNUT STREETERS
King	c	Myers-Moore
Bancks	p	Wade
James	1b	Myer Moore
Frank C.	2b	Hall
King, V.	3b	Hedrick
Bancks, W.	ss	Davis
Cole	lf	Merritt
Gieschen	rf	Darden
Taylor,	cf.	Morris

The features of the game were the pitching of Bancks and the catching of Myers and Moore.

Relaying Street Railway Track.

Track Foreman Mark Jones, of the Wilmington Street Railway Company, yesterday began work with a force of forty laborers at tearing up and grading the track of the company on Front near Red Cross street. New ties will be laid for the heavy rail and the track bed otherwise improved. Mr. C. C Chadbourn has the contract for distributing the rails along the line of track and began work yesterday afternoon. It is hoped to have the new track laid as far south as Princess street by Friday.

Will Likely Not Serve.

Mr. J. J. Blair has declined the office of Lieutenant, Junior Grade, of the Wilmington Division of Naval Reserves, to which position he was elected at a recent business meeting of the company. Mr. Blair thought the duties would interfere with his work as superintendent of the Wilmington public schools and therefore declined. His successor has been elected, but no announcement will be made until it is ascertained whether he will serve.

THE FEDERAL COURT.

The Circuit and District Terms Will be Convened in Wilmington To-day.

SEVERAL INTERESTING CASES.

Are On the Docket for Trial at This Session—Judge Purnell and District Attorney Have Not Yet Arrived. Other Notes.

The United States District and Circuit Courts will be convened here to day—this morning at 10 o'clock, if Judge Purnell reaches the city from Raleigh on the 9 45 A. C. L. train; this afternoon if he should arrive on the Seaboard Air Line train at 12:05 o'clock. District Attorney Bernard will likely arrive with him on the same train, and court will be immediately convened. Assistant District Attorney Oscar J. Spears arrived in the city last evening and many of the deputy marshals, jurors and witnesses arrived during Sunday and yesterday.

The docket is said to be comparatively light, though a number of cases of interest will likely be tried. Among the cases in admiralty is a $5,000 damage suit brought by London Cotton, colored, against the Clyde Steamship Company, by whom he was at one time employed as a stevedore until he was injured in an accident, alleged to have been caused by negligence of the defendant, and another on the civil docket against the same defendant is brought by Hamilton Hargrove, colored, who sues for $3,000 damages under circumstances something similar. Messrs. Rountree & Carr appear for the Clyde Company in both cases, while the plaintiff in the first suit is represented by Herbert McClammy and Wm. J. Bellamy, Esquires, and in the second by Iredell Meares, Esq.

Another suit of some general interest that will likely be tried is that of Thompson & Co. and A. C. Thompson, of Conway, S. C., versus the Atlantic National Bank, in which plaintiffs seek to recover $5,000 damages for alleged non-payment of a check drawn by plaintiff through the Bank of Fayetteville on the defendant bank, when, it is claimed in the complaint, that the plaintiffs had money to their credit. B F. McLean, Esq, appears for the Conway people and McNeill & Bryan for the bank people. It is understood that in addition to the attorney formally entered in the case, Russell & Gore will appear for the plaintiffs and Bellamy & Bellamy for the defendant.

A case on the equity docket is that of the Morton Trust Company against the Street Railway Company, which will be heard in the matter of a motion to foreclose.

Of course the usual complement of "moonshining cases" will come on from the up country. A number of prisoners from Fayetteville, who are quarantined against for smallpox, will get here Thursday, as the quarantine will have expired by that time.

The following jurors are in attendance upon the term:

Cumberland county—W. A. Tillinghast, Cyrus Murphy, W. H. Levy, J. H. Currie.

Sampson—Autry Baggett, I T. McLamb, J R. McPhail, Wm. Daughtry, W. W. Newkirk.

New Hanover—Eugene Philyaw, S. Bender, R. M. Murray, Wm. Calder, R. H Pickett.

Richmond—Stephen Wall, J. M. Smith, J. G. Terry, Jacob Perkins.

Brunswick—Jesse Lancaster, Jackson Staniland, Jno. H. Moore, George E. Brooks, W. A. Moore.

Scotland—Jno. D. McDonald, John M. Brewer, T. M. McLauchlin, W. W. Bullard.

Pender—J. E. Durham, R. A. Corbett, Peter Simpson, A. E. Boston, M. M. Moore.

Robeson—W. F. Steed, R. B. Bussell, D. F. Edmunds, Gils Davis.

Duplin—J. P. Alderman, C E. Hussey, Jno. R. Wells, Robt. Maxwell, B. W. Sutton.

Bladen—H. P. Clark, Richard Smith, W. I. Shaw, J. C. Stanley, James C. Cromartie.

ARRESTED SOUTH CAROLINA NEGRO.

Officers Wood and Huggins Made a Good Haul Last Night

Policemen C. E. Wood and I. F. Huggins last night at corner of Fourth and Red Cross streets came across a bad negro named Joe Jordan, wanted badly by the authorities at Darlington, S. C, for assault with a deadly weapon. There has been a warrant for Jordan at the police station for some time, but not until last night did the officers spot the negro. He was arrested and when locked up a pistol was found on his person.

Chief Furlong telegraphed the authorities at Darlington that their man was "incarcerated in durance vile," and they could send for him. A reply is expected to day. Jordan confessed his identity.

Escaped the Gallows.

At the session of Robeson County Criminal Court concluded last week, Judge E. K. Bryan presiding, Lewis McLauchlin, a colored man, who had at one time been tried and sentenced to be hanged for an alleged assault upon one of his own race near Maxton about two and a half years ago, and subsequently given a new trial by the Supreme Court, was found not guilty by a jury after a hearing of over a week and after an all night's consultation by the jury. The case attracted wide-spread attention in that community.

— Mrs. Ernest N. Farrior, of Charlotte, is in the city to spend some time with her parents, Major and Mrs. T. H. McKoy, Front and Orange streets.

— Judge E. K. Bryan arrived in the city Sunday from Lumberton and left yesterday morning for Fayetteville to hold Criminal Court. He was accompanied by Mrs. Bryan.

— Among the arrivals at The Orton yesterday were Messrs. James H. Johnson and H. T. Johnson, Hope Mills, N. C; J. E. Kelley, Tarboro, N. C; W. M. Ward, Newbern.

— Mr. Julian K. Taylor, a very clever young dry goods salesman, who has been with the Mercer & Evans Company, left last night for Harrell's Store to solicit trade for a well known Northern commission house.

— Miss Bessie Carnes, of Sumter, S. C., who has been visiting in the city for several days, the guest of the family of Mr. Henry Pannill, will leave to morrow for Fayetteville, where she will be the guest of relatives for a few days prior to returning home.

CHRLOTTE'S MAY MUSIC FESTIVAL.

Mr. Osmond L. Barringer Here to Interest Wilmington in the Event.

Mr. Osmond L. Barringer, of Charlotte, secretary of the Bureau of Information for the Carolina May Music Festival to be given in the Queen City, May 7th and 8th, arrived in the city yesterday and is a guest at The Orton. Mr. Barringer is in the city to interest the people in Charlotte's big event and was in conference with several Wilmington gentlemen yesterday in reference thereto.

This is the first Music Festival held in Charlotte since 1891, and from all prospects will be the largest in point of attendance, and certainly the highest from a standpoint of quality. The programme will consist of an organ recital and two concerts. The first will be held in the Second Presbyterian Church, Tuesday night, the 7th, at 8:30 o'clock, while the two concerts will be held in the magnificent new auditorium of the Presbyterian College, one at 3 o'clock P. M., the other at 8:30 P. M., Wednesday the 8th.

The artists engaged are among the most renowned in the country and the Charlotte people may be depended upon to give everybody that attends a good time.

Mr. Barringer came with his automobile—one of the finest on earth—and made his canvass about the city "on wheels." He will leave this afternoon for other points in the State.

WILL GO TO BEDFORD CITY, VA.

Rev. Edward E. Lane Has Accepted a Call to Virginia Presbyterian Church.

Rev. Edward E. Lane, for the past eighteen month pastor of Immanuel Presbyterian church, yesterday announced that he had decided to accept a call recently extended to him to become pastor of the Bedford City, Va., Presbyterian church, his decision to accept being subject to the action of a called meeting of Wilmington Presbytery to be held very soon.

Rev. Mr. Lane went to Bedford City several weeks ago to look over the field and after returning made the announcement as above. During his pastorate here he has done a great work at Immanuel church and has greatly endeared himself to the Wilmington people at large.

Rev. Mr. Lane is a native of Brazil, his father having been for years a missionary in that field. He is a graduate of Union Theological Seminary and the charge here was his first. The main reason for his decision to go to Virginia is on account of the climate, which he believes will be more conducive to the good health of his mother.

W. O. W. Death Claim.

Mr. George C. Jackson, Clerk of Live Oak Camp No. 6, Woodmen of the World, yesterday received a check for $2,000, the same being the amount of insurance carried by the late J. B. McDaniel for the benefit of his family in the insurance branch of that order. The payment is unusually prompt when considered in the light of the necessary delay in forwarding and receiving papers necessary to the usual proof of death from the head office.

WILMINGTON, N. C.

TUESDAY MORNING, APRIL 30.

THE NEGRO PROBLEM

There is a diversity of views on the negro problem, which are as varied and as far apart as any differing views could be on any subject. Even the more intelligent negroes themselves differ and are as far apart as white men are. Lawyer Thomas, of Cincinnati, a negro, has written a book on the negro in which he contends that there is no hope for the race, for there are no good, redeeming, upbuilding traits in it. It is, according to him, essentially vicious. He paints it blacker than has any white writer that we have ever read, and, in our opinion, rather too black. There are variations in that race just as there are variations in other races, and while it has its inherent defects, the goodness or badness of the negro depends largely up his environment, association and training. There are many negroes in this country whose lives and works negative the broad assertions of lawyer Thomas, but they are, of course, the exception, as he himself is an exception as a denouncer of his own people, and an exception, too, in the mental vigor he shows as a writer, for he is a strong writer, and a keen observer. He doesn't believe the negro has any future on which he may be congratulated wherever fate may throw him, on account, as lawyer Thomas says, of his inhereited or acquired defects.

Bishop Turner, of Georgia, believes there is a better future for the race but it is not in the United States, where the negro is coming into constant attrition with the predominating and aggressive white man, and will wear out. That's why he wants the negro to leave this country and go to the land of his ancestors, where he believes he might, left to himself, satisfactorily work out his destiny,—an impracticable suggestion and a vain hope. But if it were practicable, the hope would be disappointed, for the Africa of the future is to be the white man's Africa, which it has largely become already, where the negro will not stand half as good a chance as he does in the Southern States now. Bishop Turner will never live to see, nor will any other negro live to see, anything like a negro exodus to Africa. Africa doesn't want them and few of them are hankering for Africa. Some that had rainbow visions, the rainbows being colored by sharpers who had money to make out of the scheme, went there, saw, tried it for a while, soon got all they wanted, more than they bargained for, and were glad to get back.

Booker Washington, who has more sense on this subject than all the balance of them together, believes the negro has a future in which there may be much sunshine and it is right here in the Southland, where most of them were born and grew up, and he believes the future is in the making of the negro himself, who must be the architect of his own future.

Recently a number of gentlemen from the North, friends of education, visited some of the educational institutions for colored people in this State, Georgia and Alabama, concluding their tour at Tuskegee college over which Booker Washington presides. Some of them made speeches in the places they visited and gave their views on the subject of education. In referring to this visit Governor Candler, of Georgia, thought that these gentlemen had mistaken notions on this subject, that they didn't sufficiently comprehend the race they were talking about and that the kind of education they proposed to give the negro would do him more harm than good. He bluntly said the South could take care of the negro's education without Yankee assistance and knew the kind of education to give him, one that would save him and not make him a bigger fool and more worthless than he would be without it.

At first sight it may seem that the Governor's views are narrow and the inspiration of race prejudice, and he has been criticized for it on this ground, but he is simply saying in his own frank way what Booker Washington and other thoughtful negroes have been saying for years. Booker Washington believes in the education of the head and hand together. The head should be taught to respect honest labor, and the hand to do it cheerfully and to do it well. He believes in practical common sense education, not to make stuck-up swells, bumps on logs, or drones in the hive, but to enable the person that gets it to perform some useful work and to earn three square meals a day. Nobody criticises Booker Washington because he is black and is talking to and for his own race, but Governor Candler is criticised for expressing substantially the same views in somewhat unconventional Georgia talk.

Booker Washington is helping to solve the problem, and events are helping him to do it. One of these events has been the restricted suffrage adopted by some of the Southern States, and eventually will be by all of them. This eliminates many negroes from the ballot box, and that is a long stride in the direction of solving that problem. Removed from the field of politics the average negro will escape a great deal of temptation and demoralization, will have less to entice him from his work and will in consequence become a more industrious, more useful and less offensive member of the community in which he lives. With more thrift he may accumulate money, become a home owner and that will be another step in the direction of the solution of this problem. Being a property owner and a taxpayer he will be more interested in good government and will have less use for political frauds and dead beats.

While all this is going on, although the negroes may increase in number the increase in the white population will be greater, greater in the natural course and also by immigration, which will become larger in coming years than it is now, and this will be another factor in the solution and a very potent one, perhaps the most potent of all. Every thousand added to the white population goes that far towards the solution of this problem. When the races are about evenly divided there might be trouble in settling it, when the whites are three or four to one it becomes comparatively an easy matter. The South is solving that problem in its own way. The white man is doing it and he is meeting with the co-operation of some of the best of the negroes.

PAYING WAR BILLS.

Speaking of Great Britain's ability to pay the cost of the Boer war, which it is estimated will run somewhere up into $1,000,000,000 before they are done with it, the New York *Tribune*, a pro-Briton paper, says:

"The loan of $300,000,000 which Sir Michael Hicks Beach is negotiating is one index of the cost of the Boer war. As we said the other day, John Bull will pay the bill. Great as is the amount required, more than five times as much has been promptly offered. There can be no question of the ability of the British nation to meet the financial cost of the war. And after paying the bills, by increasing the funded debt, John Bull will resume the process of paying off the debt at a rapid rate, as he was doing before this war."

Of course she can pay it. Great Britain is not going into bankruptcy for a little thing like $1,000,000,000. There are fellows over there and here and in nearly all countries whose business it is to lend governments money when they get into a pinch, for this kind of business pays and they prefer to put their money into government bonds as the best and safest kind of investment for them. They are generally powerful enough to control legislation so as to take care of their interests, and they know that the necessary taxes will be imposed to meet the interest on these bonds and secure the principal. That is all they care for, and that is why governments, although sometimes represented as bankrupt, can get all the money they need. The men who lend them money are very often interested in establishments which furnish arms, ammunition, provisions, etc., in the wars that are waged. The longer the war and the more costly, the more money they make out of it.

A few days ago an article appeared in a Northern Administration organ comparing or rather contrasting the outcome of the war in South Africa as regards the British Treasury, and our Spanish and Philippine wars, as regards our Treasury, the one coming out short the other with money to spare; but it was not stated in that boastful article how much the American people had been taxed to foot the expenses of these wars nor how much they had paid to put money in the Treasury. Every dollar that went into that Treasury came out of the sweat of the toiling millions of this country who, like the toiling millions of all countries, not only furnish the men who do the fighting but also the money to pay the bill. As long as there are people to sweat and pay of course war bills may be paid and government organs may brag about the ability to pay.

FAVORABLY IMPRESSED.

A Washington dispatch says there is a general impression among those who have been in close touch with the Cuban delegates that on their return they will recommend the adoption of the Platt amendment. Their parting interview with the President and Secretary Root indicates that. In that interview the spokesman for the delegation spoke of the Cuban "republic," and the President advised them to organize "their" government, when he would appoint a commission to consider and negotiate trade relations with Cuba. The presupposes the Cubans acting for themselves as an independent people.

It will also be remembered that in the interviews with Secretary Root, who, in conjunction with General Wood, seems to have done most of the business with them, inquiry was made as to the meaning of the words "substantial acceptance" in connection with the amendment. It appears that this was explained to their satisfaction, and it appears further that they were assured that it was the intention to recognize the "independence" of the "republic."

We infer this from the language of General Wood who, before leaving for Cuba, was interviewed and stated that the Cubans were returning home well satisfied as to the meaning of the terms in the Platt amendment and that it was "the sincere desire of the American Government to put Cuba on her feet as an independent Government." Considering the fact that General Wood has been the principal manager in in this business all along; that he doubtless had much to do in the coming of this delegation to Washington; that he chaperoned it while there and was the go between in the business done there, he doubtless talked from the inside and knew what explanations and assurances were given to the Cubans. It may, therefore, be safely presumed that the delegates in their report to the convention will recommend the "substantial" adoption of the Platt propositions and that they will be "substantially" adopted.

But people who had been watching the drift of events came to that conclusion some time ago.

BOOK NOTICES.

"Etidorhpa, or the End of Earth," is the unique title of a unique story by John M Lloyd, just issued from the presses of Dodd, Mead & Co. It is a weird story, illustrated, making a neat cloth-bound book of 375 pages, every chapter of which is interesting. Address Dodd, Mead & Co., 372 Fifth Avenue, New York.

The May number of *The Atlantic Monthly* presents an interesting list of contents, embracing a continuation of those interesting articles on "The Reconstruction Period" in the South, this number dealing with the "Ku Klux Movement," a movement, by the way, that was never fully understood on the other side of the line. Published by Houghton, Mifflin and Company, No. 4 Park street, Boston.

The April number of *The State Normal Magazine*, at Greensboro, is a very attractive one, nicely printed and bound and filled with matter of general interest, not only to those who keep an eye on the Normal School, one of North Carolina's jewels, but to all North Carolinians, for it presents biographical and historic sketches in which we are all interested. It makes a book of 232 pages, exclusive of advertising.

Dr. Browning, of Philadelphia, Pa., who attended the late C. L. Magee, of Pittsburg, Pa., moderately demanded only $190,000 for his visits —$80 a visit. He made out a bill at the rate of $40 an hour, but says Mr. Magee thought his time was worth double that, and he took the hint and doubled the charge. He got mad when the administrators refused to pay the bill and is now putting in a claim for $484,000 for gifts and profits on investments made for him by his late patient. This seems to have been an after thought with him, and a post mortem one also. But why didn't he make one job of it and ask them to turn over the whole estate? His time is too valuable to be frittered away thinking up things to claim.

The spool factories of this country turn out annually about 800,000,000 spools, made principally of white birch found in Maine. It takes annually about 35,000,000 or 40,000,000 feet to fill the bill. In addition to this about 15,000,000 or 20,000,000 feet of this wood is annually shipped to Scotland to be made into spools. Some one who had leisure time for figuring has wound up and says the thread that would go on these 800,000,000 spools would wind around the earth at the equator 3,600 times. We will take his word for it.

A rich old white woman, recently deceased in New York, worth about $100,000 left it all to a negro Pullman car porter to whom she took a fancy and thought the "nicest man in the world," nicer even than the husband whom she left but didn't leave any of her money. The husband and others interested are contesting the will on the ground that she must have been crazy to let a black Pullman porter get a $100,000 pull on her.

Prevented a Tragedy.

Timely information given Mrs. George Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the match less merit of this grand remedy for curing all throat, chest and lung troubles. Only 50 cents and $1 00. Every bottle guaranteed. Trial bottles 10 cents at R. R. BELLAMY'S drug store. †

HOW TO GAIN FLESH

Persons have been known to gain a pound a day by taking an ounce of Scott's emulsion. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking Scott's Emulsion.

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

If you have not tried it, send for free sample its agreeable taste will surprise you.

He takes exercises with his arms and legs, without dumb bells or Indian clubs or anything else, simply moving them with a kind of gentle force and for brief periods. His exercise of the lungs, to expand his chest, is by deep respiration. He never eats anything that he knows will be difficult of digestion. He is moderate in all things, has never been sick and expects to be strong and healthy at 100 years. — Troy *Examiner*: D. F. Morgan brought Alex. Harter to Troy Tuesday and placed him in jail. Alex. had a key to fit the lock on A. Capital stock, $10 000, shares being $50 each —— Storms and swollen streams have caused considerable damage to the bridges, growing crops, fruit and property in this State and in fact a good many States of the Union the past week. The fall of rain in this section has been almost unprecedented and the streams have interfered no little with traffic in various parts of the country.

— Raleigh *News and Observer*: Visitors to Raleigh from the north western part of the State tell of great damage in that section. They say that the excessive rains of Sunday, Monday and Tuesday did much damage and ruined much of the crop. Besides the rain there was snow in many parts of the west. On Sunday, a week ago, it is reported to have drifted to a depth of over five feet in Mitchell county. —— The State Guard will be in fine shape soon It is expected that the various companies will be equipped with the Krag Jorgensen rifles, calibre 30, in place of the Springfields, calibre 45, now in use, and that Khaki uniforms will be available by the time the encampments occur. These, it is expected, will be by regiments at times and places yet to be agreed upon

— Statesville *Landmark*: The heavy rains of last week caused much damage to lands and crops The South Yadkin river was swollen beyond its banks and much of the bottom lands washed away and the ditches levelled. Saturday was cold Sabbath morning showed a nice snow, which would have been a credit to December, and this was repeated yesterday morning. Many persons say they never saw such a snow, but we are prone to forget the past. We had snow on the 29th of April, 1879, and on that date in 1880 or 1881, so what has been will be again. —— A pair of shoe buckles on exhibition in the show window of Mr. R. H. Rickert's jewelry store were worn by Mr. Edwin Thomas Booth, the great American actor, during his stage career. Mr. Booth presented them to a fair held in New York in 1889, for the benefit of Mount Sinai Hospital, a Jewish institution. They were raffled off for $500 and were won by Mr. Jacob Wallace, of New York, who afterwards sent them to his brother, Mr Wm. Wallace, of Statesville, the present owner.

— Gastonia *Gazette*: On Happy Hill Monday night Jim Roseborough fell out with Dolphus Dawkins about a "woman" and shot him. Both are negroes. Roseborough was pursued by Officers Williams and Russell and a posse with blood hounds from 8 o'clock that night but, failed to catch him. The chase was through the jungle west of town. —— The fantastic feat of the peach trees this year in producing two peaches to the bloom is certainly a remarkable phenomenon and apparently a widespread one. But we are able to go the record one better. Miss Macie, the little daughter of Mr. Monroe Whitesides, brought us yesterday the peaches from two dozen blooms every one twins or triplets and four out of the 24 were triplets—three to the bloom. The twins were well formed and healthy looking and the triplets as big and fine as the twins. —— The $8,000 iron bridge at Mt. Holly went down in Saturday's great freshet. It was built on six steel tubes, forming three piers. Some wooden bridges above it were destroyed by the high waters, and the debris from these, along with logs and trash, accumulated in considerable mass against the piers. Spectators saw one of the steel tubes jump about a foot and give away suddenly. Then the entire bridge gave away with a great crash and plunged into the yellow foam. One of the steel tubes was broken in two. This bridge cost about $8,000. Gaston county paid $2,250, Mecklenburg $335; the rest of the money was raised by private subscription through the enterprise of the citizens of Mt. Holly.

SECRETARY OF STATE.

Minnesota Has No Firmer Believer in Paine's Celery Compound.

Paine's celery compound has acquired its tremendous reputation for making people well by direct personal testimony from men and women who have used it. No testimonial has ever been published for this great remedy that could not be easily verified at first hand by any one at all interested. Nothing has ever been claimed for Paine's celery compound that it has not accomplished in hundreds of cases.

For the guidance of thoughtful people who recognize the need of purifying the blood and regulating the nerves in the spring, the following letter to the proprietors of Paine's celery compound from Secretary of State Berg of Minneapolis will be of the utmost value in determining upon a trustworthy spring remedy:

St. Paul, Minn., Jan. 4, 1901.

Dear Sirs:

One can show no greater faith than by taking a remedy for one's health No better testimonial of excellence can be offered than the recommendation of that remedy to one's friends. I have taken Paine's celery compound myself, and as a result heartily commend it to others

ALBERT BERG.

No remedy but Paine's celery compound has ever been recommended by so conspicuously fair minded a body of men and women. It occupies a clear field among men of sound judgment in the cure of diseases arising from a tired or otherwise impaired nervous system.

There is no help so sure and so immediate as one gets from the use of Paine's celery compound. Detailed information of innumerable cases of rheumatism, neuralgia and dyspepsia, completely cured, has established this great invigorator as the most valuable remedy those run down in health can make use of.

Paine's celery compound frees the body of vicious humors that have accumulated during the winter, and are the cause of kidney and liver complaints. Only a great remedy based on profound knowledge of these diseases could do the work that Paine's celery compound is now doing.

Better nutrition for the nerves, an weakened appetite, purified blood, and complete assimilation of the food—these follow the faithful use of Paine's celery compound as surely as day follows night.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, April 29.—The cotton market was dull to day. Trading was small from nearly every standpoint and while the scalping faction was enabled to make several turns to fairly good advantage, there was little in the course of events to stimulate investment operations on the part of the public. The opening was steady with prices one to three points higher, following a better ruling of the English market than expected. Following the call the slight support from abroad died out and selling orders from the South and Wall street became supreme. Under this pressure in conjunction with room selling prices worked slowly downward, until by midday a net loss of seven to eight points had been recorded. The downward trend of the market was unchecked until May touched 8c and July 7 99. Profit-taking then brought about a partial reaction, but bull speculation was at no time a feature. A selling movement was caused by heavy receipts and a full interior movement, fine weather conditions over the cotton belt and better crop advices. Japan was said to be buying India cotton because of its relative cheapness. The close was quiet and steady, with prices net seven to nine points lower.

BEAUTY.

Beauty was born of the world's desire
For the wandering water, the wandering fire;
Under the arch of her hurrying feet
She has trodden a world full of bittersweet.

The blood of the violet is in her veins;
Her pulse has the passion of April rains.
Out of the heart of a satin flower
God made her eyelids in one sweet hour.

Out of the wind he made her feet
That they might be lovely and luring and fleet;
Out of a cloud he wove her hair
Heavy and black with the rain held there.

What is her name? There's none that knows—
Mother of Mischief or Mouth of Rose.
What is her pathway? None may tell,
But it climbs to heaven, and it dips to hell.

The garment on her is mist and fire,
Anger and sorrow and heart's desire.
Her forehead jewel's an amethyst;
The garland to her is love in a mist.

Her girdle is of the beryl stone,
And one dark rose for her flowing has grown,
Filled to the brim with the strength of the sun,
A passionate rose, and only one.

The bird in her breast sings all day long
A wonderful, wistful, whispering song;
The song that is of all passing things,
None knows it—wingless or born with wings.
—Nora Hopper.

HOMEMADE DRESSES.

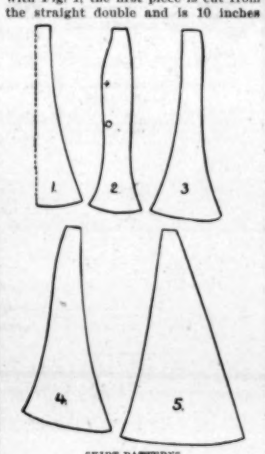
USEFUL SUGGESTIONS REGARDING THE MAKING OF SKIRTS.

Designs For Five Different Styles and How They Should Be Cut—Circular, Gore and Flare Skirts—The Completed Garment.

[Copyright, 1901, by American Press Association.]

There are three distinct styles of skirts for this season and several others which are based upon these three models, but made different by some change of trimming or other minor arrangement. The first is the circular; the second is the plain seven gored, which has been the standard for so many years that it is scarcely necessary to speak of it more than to say that it forms the basis of some of the prettiest of the season's gowns. It is particularly well adapted to any suit where flounces or other full trimming is to be added. And flounces are to be very popular on thin dresses. The seven gore skirt is the best model where economy in material is concerned, when the material is such that there is no up or down. In that case it can be cut in what the manufacturers call "close lay." This means that the breadths are cut by laying the pattern on the stuff, up and down and any way so that there is no waste.

The third is a skirt which has after a long effort at last gained favor. This is the seven gore flare skirt. Some call it sheath. It fits the wearer closely at the top and flares widely at the bottom. This skirt can hardly be called an economical one, as the flare at the bottom takes up much cloth, even when there is no nap. To cut this skirt it is well to lay the cloth doubled on a long table and try to get two double parts out of each width of cloth. Beginning with Fig. 1, the first piece is cut from the straight double and is 10 inches



SKIRT PATTERNS.

across the top and 22 at the bottom, the flare not being quite so marked as in the other breadths. No. 2 is to be cut double, as there are two of all the breadths except the front and back. The top of this breadth is 5 inches, and at the place where the X is it measures 7 inches and dwindles to 6 inches at the place marked O. The flare then brings it to 15 inches at the bottom. No. 3 is 7 inches at the top and slopes gradually out to the bottom, where it measures 20 inches. There are two of these. No. 4 is 6 inches at the top and 24 at the bottom, with an almost imperceptible flare at the front side, about half way down. No. 5 is cut on the fold of the cloth at the back, with the bias part to be sewed to the bias of No. 4. The back breadth is 14 inches at the top and 30 at the bottom. This makes 56 inches around the top. Probably no woman measures so much around the waist, nor is it expected that this is to be the exact size, for when the lining is basted to the outside—if it is a skirt requiring lining—the breadths are basted together and put on the owner, wrong side out, and then the skirt is fitted like a waist, for it is intended that this skirt shall fit the figure closely, all except right in the center of the back, where there may be gathers or a double fold. The front breadth is allowed in the diagram wider at the top in comparison than the others for the reason that no two women are shaped exactly alike across the stomach, and this is to allow a fit to all shapes. The seams are to be taken in with pins.

When the skirt has been fitted to the figure, it should be rebasted and tried on again, this time right side out, and any small imperfections rectified, after

COMPLETED SKIRT.

which the seams may be stitched, but there must be tapes stitched in with every seam because the bias seams would drag out of shape in no time if this were not done.

It is optional whether the seams shall be pressed flat or are stitched down on each side. Each way has its devotees.

The completed skirt shows how this skirt may be finished off in grass linen for summer and also any other material. Tailor suits need no trimming, but flounces will be seen on all the light stuffs. OLIVE HARPER.

Conflicting Orders.

"The average photographer," said Henpeck musingly, "is an unreasonable creature."

ELECTRIC HERCULEX

FOR WEAK MEN AND WOMEN

A perfectly safe and natural invigorator. Superior in every way to all other remedies. Imparts to the weakened system a gentle soothing current of GALVANIC ELECTRICITY, the essential element of robust health and vigorous strength—making life worth living, and promoting longevity in strict accord with all the laws of Nature.

A marvel of modern therapeutic science, with a record of over 50,000 cures extending throughout the world. The accepted and approved remedy of thinking men and women, particularly those whose experience has shown them the futility of drug treatment. Appeals to the common sense and reason of all who use it.

If You have Overtaxed Your System

through over-work, excess or exposure, family or business cares, ELECTRIC HERCULEX will build you up and restore you to a condition of health in an incredibly short time. If you suffer from Nervousness, Rheumatism, Kidney, Bladder or Liver Troubles, Indigestion, Constipation, Weak Back, etc., I am confident it will cure you if you are willing to do your part.

No inconvenience, no risk of injury, to stomach, as in drug treatment. No loss of time. Adjusted to the body and used while you rest or sleep, strengthening every vital centre and naturally refreshing the mental faculties. One application will give relief, and if treatment is continued for one or two months and simple directions followed a complete and permanent cure will follow.

ALL ADVICE FREE.

Had the Right Idea.

It is related on good authority, and in this case good authority means good authority—this is no Kaffirgram—that a young woman went into a music store in this city the other day and asked the clerk for a copy of "Angels Always Polished."

The clerk turned over a stock of coon songs in a puzzled way and said he was afraid that they were just out, but he could send for it.

"My teacher said you would be sure to have it," said the maiden. "It's by Handel."

Guessing is a part of the clerk's business, and he showed her "Angels Ever Bright and Fair."

It was what she wanted.—Worcester Gazette.

Famous Gamblers.

Mme. du Barry was the most famous woman gambler of the time of Louis XV, but with her it was only a pastime. But Mme. Pompadour went in with the sole object of winning if she could. It is recorded that her winnings were enormous, and that in a single game she eased the pockets of the king of 25,000 louis d'or ($125,000).

Off His Mind.

"Have you forgotten that X that you borrowed of me some time ago?"

"Oh, no; I still have it in my mind."

"Well, don't you think this would be a good time to relieve your mind of it?"

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by R. R. BELLAMY, druggist. †

THE LATEST AS TO NERVES AND STRENGTH

It is not muscle so much as the nerves back of muscle which show one's strength and power of endurance. And the study with able physicians of to-day is how to keep the nerves in perfect health and fitted for the strain of every-day living. Headache of every type, nerve weakness, dyspepsia, sleeplessness, languor, restlessness, nervous dyspepsia, muscular weakness, brain weariness, poor circulation,—a thousand different unpleasant feelings and symptoms are due to nerve waste and nerve weakness,—especially in women and children. But how can all this be prevented, one will ask? How can my broken down constitution be repaired, and nerve strength and full, robust health be secured. Just two points to remember: Determine that you will grow strong in nerves and health, and decide to use at once that most famous nerve cure, COCELIN. It is delicious in taste, quick in action and makes the wearied nerves tingle with renewed strength and every function the stronger and faculty the brighter by its use. Druggists sell it.

The Morning Star.

WILMINGTON, N. C.

TUESDAY MORNING, APRIL 30.

Sunday Afternoon Fire.

Fire in a two story frame dwelling owned by Mrs. M. P. Christ and occupied by Lizzie Lucas, colored, in Christ's alley Sunday afternoon about 2 o'clock caused a damage of about $150 to the building and $50 to contents. The building was insured for $300 and the flames originated from a lamp explosion. The residence of Mrs. W. H. Lippitt, No. 115 South Second street, was damaged slightly by a blaze started by sparks from the burning building in the alley. The department responded to an alarm from box 43. While superintending the fire, Assistant Chief Monroe lost a valuable ring bearing a Masonic emplem for the return of which he will pay a liberal reward at Hook and Ladder Station, No. 1.

CHINESE CAUGHT GERMANS IN A TRAP.

A Detachment of Eighty Had Forty-five Casualties—Chinese Loss Nominal. Affairs in Pekin.

By Cable to the Morning Star.

PEKIN, April 29.—The generals of the Powers held a conference this morning to consider the question of withdrawal of the troops and decided to address a note to the ministers informing them that when the ministers are able to announce the lump sum demanded as indemnity and the Chinese have agreed to the principle of payment, arrangements will be possible for withdrawal.

The other matters discussed were the handing over of the administration of Pekin to native officials and the plan for the command of the legation guards as to whether this command should be centered in one officer or each detachment should be independent.

Regarding the government of Pekin it was decided to allow the Chinese gradually to assume more control until the civil government was entirely in their hands, the military only exercising passive supervision.

The Germans were virtually caught in a trap near Ku Kwan Pass. A detachment of eighty had forty-five casualties, while the Chinese losses are said to have been nominal.

The German expedition is returning, leaving the country greatly disaffected, owing to the hardships inflicted upon the population. Altogether, the expedition appears to have produced a very bad effect.

The current Chinese gossip is that the Germans were driven back with heavy losses, and this is implicitly believed by the bulk of the population.

HON. DAVID B. HILL.

Says He Is Not a Candidate for the Democratic Nomination for the Presidency in 1904.

By Telegraph to the Morning Star.

ALBANY, N. Y., April 29.—Ex-Governor David B. Hill to day gave out the following statement:

"My attention has been called to the story which is going the rounds of the press that I am expecting to make a political trip through the West and South either this year or next.

"I desire to state that I do not contemplate any such trip. When recently advised that an invitation was being prepared in the State of Washington and elsewhere requesting me to make such a visit, I immediately replied that it would be impossible and requested an abandonment of the proposed invitation.

"I will state further that I am not a candidate for the Democratic Presidential nomination in 1904. I am neither seeking the nomination nor expecting it. I regard all suggestions of candidates at this time as premature and inadvisable. No one can tell now what can or ought to be done in 1904."

BUYING INDIA COTTON.

Immense Purchases Made in Bombay by Japanese Manufacturers.

By Telegraph to the Morning Star.

TACOMA, WASH., April 29.—The steamship Copack brings news that the shipments of raw cotton from the U. S. to the Orient will be generally affected by immense purchases of Bombay cotton, just made by the cotton spinners union, embracing the largest cotton manufacturers of Japan. Their agents have bought 250,000 bales to be shipped within the next few months. Of this quantity, the Nippon Yusen Kaisha will carry 100,000 bales at 12 rupees a ton. Many manufacturers intend to mix Bombay with American cotton, while others will use the former exclusively.

THE COLUMBIA HOMICIDE.

Evans Charged With Killing Griffin—Released On Bail.

By Telegraph to the Morning Star.

COLUMBIA, S. C., April 29.—Application was to day made to the Supreme Court for bail for B. B. Evans, charged with killing J. J. Griffin, April 13th, in this city. It was granted in $3,000 and will be given, probably to-morrow.

In his affidavit Evans said Captain Griffin was about to shoot himself. He attempted to take the pistol from him and it was discharged.

PRESIDENT'S TOUR TO THE PACIFIC.

Departure of the Party From Washington Over the Southern Railroad.

DEMONSTRATIONS OF REGARD

Large Crowds Assembled at Every Station in Virginia—Flattering Ovation. President Spoke Briefly to Gatherings Along the Line.

By Telegraph to the Morning Star.

WASHINGTON, April 29.—The train which is to carry President and Mrs. McKinley and their party on their long excursion across the continent and back, made its start to-day precisely on schedule time, over the Southern road. Before 10 o'clock many people had congregated about the station, and when the President and Mrs. McKinley arrived, as they did about 10.20 o'clock, the building was thronged and many persons were congregated on the outside.

There was a cheer as the President's immediate party drove up to the station, and a general demonstration of affectionate regard as the head of the nation and his wife made their way through the crowd to the train. Mrs McKinley leaned on the arm of Dr Rixey, and both she and the President smiled in response to the greetings which met them at every step. They were accompanied to the train by numerous friends and by many persons distinguished in the affairs of the nation. The party included Secretary Gage, Secretary Root, Senator Hanna, Justice McKenan, General Corbin, General Sternberg, Secretary White of the American embassy in London, Commissioner of Pensions Evans, Comptroller Dawes, General Bates, Assistant Postmaster General Shallenberger, Congressman Livingston and many ladeies of the cabinet circle.

Mrs McKinley found the drawing room of the private coach which she and the President are to occupy beautifully decorated with roses and other flowers. She spoke gratefully of the thoughtful care of her friends, and seating herself beside a window, continued to smile and bow at acquaintances until the train moved out. The President took his position on the rear platform of the Olympia beside Secretary Hitchcock, hat in hand, a brilliant carnation in his button hole and a smile upon his face. Just as the minute hand of the big clock in the station touched the 10 30 point the train started upon its 10,000 mile journey. The crowd cheered enthusiastically and waved a good bye. The demonstration was continued until the train left the environs of Washington, the crowd extending well to the city limits.

Stop at Charlottesville.

CHARLOTTESVILLE, VA., April 29 — The Presidential train, with a tiny flag on the pilot of the engine, denoting that the Chief Magistrate of the nation was aboard, arrived at this place on schedule time. The run from Washington was made without incident. A brief stop was made at Alexandria. A big crowd had assembled at the station there and the President and Mrs. McKinley appeared upon the platform to acknowledge salutes. Speeding through Virginia to this town, famous as the seat of the University of Virginia, people gathered at every town, village and cross roads to see the train go by.

At Manassas, Culpepper and Orange the crowds were especially large. At the last place a large American flag flew from a staff in the national cemetery, where are buried many of the Union dead. As the train approached Charlottesville the party had a glimpse of the old home of President Madison at Montpelier. The pillars of the old colonial mansion were plainly discernible through the trees. At Charlottesville there was an immense assemblage at the station. The students from the university lined up alongside of the train and gave the President three cheers and a tiger when he made his appearance. From the platform of his car the President spoke as follows:

President's Speech.

"It gives me very great pleasure to receive the greeting of the people of Charlottesville and the cheers of the young men of the University of Virginia. Your institution is linked with great names and great deeds and has influenced both.

"What an array of immortal names Virginia holds in her keeping to remind us of lofty patriotism, broad statesmanship and noble achievements!

"To no other State of the American union belongs such history to preserve and cherish and such examples to inspire and emulate. May the young men of the State of Virginia prove worthy sons of their noble ancestors and contribute in the future, as they did in the past, to the well being and honor and glory of the republic. Let me assure you, young gentlemen, that the present and the future hold rich rewards for good scholarship, high character and noble endeavor, and the wish which I leave with you is that of these you may have your full share.

Postmaster General Smith.

There were calls for Secretary Hay, but his only response was to introduce Postmaster General Smith, who said:

"This seems hardly a kindly service to be performed by the latest Secretary of State in the home of the first great Secretary of State of the United States. The present secretary worthily perpetuates the literary fame and the statesmanlike achievements of the first great secretary who lived here and planned this University of Virginia. I recall that for many years the chief officer in my department of the public service in the city of Charlottesville was a noble woman, the daughter of a Union officer and the wife of a Confederate officer. She was first appointed by General Grant; and when in the early years of the first administration of President McKinley the suggestion was made of a change, he answered: "No, I will remove no one appointed by General Grant who preserves such memories.'" Great applause.

Mr. Smith's reference was to Mrs. Long who was appointed postmistress of Charlottesville by General Grant. She was the daughter of General Sumner of the Union army and widow of General Long of the Confederate army. Mrs. Long died some months ago.

At Lynchburg.

LYNCHBURG, VA., April 29.—In this city, the home of Senator Daniel, there was a stop of ten minutes. Senator Daniel, Mayor G. W. Smith, members of the Board of Trade and city council and a great crowd greeted the party with old fashioned Virginia enthusiasm.

Senator Daniel made a speech of welcome to which the President responded.

Will Stop at Memphis.

WYTHEVILLE, Va., April 29.—The President and his party will keep in close touch with Washington through the trip to California and every facility has been arranged to transact such business as is necessary from the train. The railroad officials in charge of the train and the various divisions over which it passed took every precaution to guard against the possibility of a mishap of any character. The track, switches and bridges were all carefully inspected just before the train reached a given station, everything on the road, passenger as well as freight, was side tracked, and over the Norfolk and Western to day a pilot train ran ahead of the presidential special. All the train crews on the side tracks lined up and uncovered as the chief magistrate went by.

All the members of the party enjoyed the first day of their trip and the President expressed his gratification over the reception he had received. Mrs. McKinley, who was not feeling particularly well when the train started, became better as the day progressed, and to night said she had enjoyed it all very much. To-morrow the train will make brief stops at Huntsville, Decatur and Tuscumbia, Ala., and Corinth, Miss., and Memphis, where the party will remain until midnight. Memphis will be reached at 4.30 P. M.

CONSOLIDATION OF SHIPPING.

The Leyland Line Purchased by J. D. Morgan & Co. for the Atlantic Transport Line.

By Cable to the Morning Star.

LONDON, April 29.—The first step in the direction of the consolidation of some of the biggest trans Atlantic shipping interests has been accomplished by the purchase by J. Pierpont Morgan & Co., of the Leyland Line of steamers. A deposit on the purchase money has been paid.

A representative of the Associated Press learned that the purchase of the Leyland Line is tantamount to its consolidation with the Atlantic Transport Line. For the present the Leyland Line will retain its name and be under the same management, though changes in the directorate are likely to occur shortly.

President Baker, of the Atlantic Transport Line, said to the representative of the Associated Press:

"Although the Leyland Line has been purchased by the Morgans, I am not yet at liberty, nor, indeed, fully in a position to discuss the arrangements projected. Beyond the purchase, nothing will be settled until I return from the United States in June."

The result of the projected consolidation will be a steamship company with the largest tonnage of any company in the world.

The officials of the Leyland line, in confirming the sale, told a representative of the Associated Press that an official statement will be issued from the head office of the line at Liverpool to-morrow. It is understood that the shareholders will receive £14 10s for each £10 share.

The Leyland Line, whose fleets will thus pass into the hands of the Americans, is one of Great Britain's greatest shipping institutions, far exceeding the Peninsular and Oriental Steam Navigation Company in tonnage and importance.

When some months ago it was suggested that the line was likely to pass into the hands of the Atlantic Transportation people, much comment followe in regard to the effect it would have on the other British lines, as it was generally felt in shipping circles that any such wide reaching shipping amalgamation, in close touch with American railroads, would have serious consequences for lines outside the combination.

LONDON, April 30.—The *Daily Express* asserts that the financiers for whom Mr Morgan is acting are ordering ten big liners, and that the Americans will spend £10,000,000 upon vessels during the coming five years.

TRAIN ROBBER CAPTURED.

Both Men Engaged in the Robbery of the Southern Express Car Now in Custody—A Confession.

By Telegraph to the Morning Star.

MACON, GA., April 29.—C. B. Jordan was arrested in Atlanta to night as the second man in the robbery of the Southern Express Company's car on the Georgia Central road, between this city and Gordon, Ga., on April 25th, and will be brought to Macon to morrow morning by City Detective Amerson.

O'Neill Fairfax Chestnut, who has been locked up here for participation in the robbery under the name of Frank Fairfax, broke down when confronted with the evidence against him and made a full confession. His story of how he and Jordan committed the crime bears out the statement made by Express Messenger White, who was in charge of the car at the time the robbery was committed.

Chestnut's statement is as follows:

"Jordan and I have planned the robbery several times, but each time we postponed action. We made two runs to Savannah. Hunger and craving for liquor caused me to go into the agreement with Jordan. I was without work and had been ever since I resigned my job as engineer on the Seaboard Air Line about a month ago. Jordan induced me to come to Macon, saying he could get me a job. I came here and found that Jordan had lost his job as baggage master on the Southwestern, and we were both in hard luck. My wife was suing me for alimony in Jacksonville, and she held up my hundred dollars a month salary every month. That is the reason why I left there. Up to the time of going with the railroad as engineer I had been a policeman in Jacksonville; was sergeant when I gave up that job. Until then my record had been as clear as that of any man. My people live in North Carolina, but I do not care to speak of them or their thereabouts.

"We jumped off the train while it was going twenty miles an hour. Both of us were knocked unconscious. We were about six miles from Macon. I gained consciousness first and looked for Jordan. I found him and thought he was dead. It was at least ten minutes before I could hear him breathe. We were so bewildered we took the opposite direction from Macon. We thought if we came back to Macon we would never be suspected."

Jordan is a Macon man and was formerly a baggage master on the Southwestern railroad.

The Atlantic Construction Company of Jacksonville, Fla., capital $100,000, was incorporated at Dover, Del., yesterday.

CASE AGAINST CAPT. J. C. REED.

United States Army Officer in Manila Charged With Receiving Bribes.

THE COMMISSARY SCANDAL.

Bids Fair to Develop Something Sensational — Other Officers Involved Charges Against Major Geo. B. Davis—Some Testimony.

By Cable to the Morning Star.

MANILA, April 29.—The trial of Captain James C. Reed, former depot commissary at Manila, and who was arrested about a fortnight ago for alleged participation in the commissary frauds, was begun here to-day and bids fair to develop into a celebrated case. Captain Reed is charged with soliciting and receiving bribes and with other official misconduct.

Mr. Schindler, manager of a cigar factory, testified that in November Captain Reed had told him that Major George B Davis, who was the depot commissary before Captain Reed, out who was sent to the United States on sick leave and whose name appears upon the books of Evans & Company, government contractors at Manila, as the recipient of $1,000, was $2,000 short in his accounts. Continuing, Mr. Schindler testified that those having profitable contracts with the government were asked to assist in making good Major Davis' deficiency. Schindler gave Captain Reed $105, which was 2½ per cent. commission on the cigars sold to the commissary department during the time that Major Davis was depot commissary at Manila.

An officer named Franklin who was assistant commissary, testified to the effect that on March 18th, following the direction of a superior officer, he obtained $1,000 from Major Davis and paid this money over to Schindler.

Inspector General Garlington testified that during the preliminary investigation of the commissary scandals Captain Reed admitted to him recovering money from Schindler and others and gave as an excuse that the money so recovered was intended to cover Major Davis' beef shortage.

Lieutenant Richard H. Townley, of the navy, at present superintendent of the Manila nautical school, testified that as the result of a conference with Captain Reed he went to see Castle Brothers, contractors, who supplied the commissary with vegetables, etc., and wanted them to give Captain Reed $2,000 and ten per cent commission on all sales.

Castle Brothers demurred to this proposition. Lieutenant Townley again went to Castle Brothers and this time only asked them for $2,000. Castle Brothers were reluctant to hand over this sum and Lieutenant Townley explained that Captain Reed was in a position to advance the interests of the firm and that it would be advantageous to Castle Brothers to oblige him. Lieutenant Townley testified that he further explained to Castle Brothers that Captain Reed might allow them the use of government lighters, and possibly be less rigid in the inspection of goods purchased. Lieutenant Townley said he thought Captain Reed was doing a noble thing in attempting to protect the character of a brother officer. He also said that such transactions were not customary in the navy. When cross-questioned, Lieutenant Townley said, rather sheepishly, that he was not so sure he was doing right in taking the witness chair.

Colonel Charles A. Woodruff, chief of the subsistence department in Manila, explained the circumstances of Captain Reed's appointment and described the duties of the depot commissary, not knowing whether the accounts of Major Davis were correct or not. Colonel Woodruff explained that on December 30th, Castle Brothers aroused his suspicions by intimating that money was being collected by an officer of the commissary department. Later, Colonel Woodruff sent for Captain Reed who admitted receiving rebates for the purpose of covering the delinquencies of Major Davis. The testimony of Colonel Woodruff is unfinished and other witnesses are awaiting examination.
